

The Holly Springs Cowboys started a riding club in 2000 with a small group of friends and family. The organization grew to become helpers of the community, serving while enjoying riding. In 2011 they saw the lack men working together and being positive role models in the community so they became an organization determined to help and mentor young men. In addition to the annual back to school retreat on the LeSueur Ranch (Holly Springs, MS), the Holly Springs Cowboys can be seen participating in parades, trail rides, church picnics, fundraisers and other community events.
